EXPERIENCE

Software Development Engineer – [Amazon](#)

Sept 2017 – Present

- As part of the International Expansion Team, launched several scalable products for millions of Amazon customers in new countries, such as Australia and Japan, with robust infrastructure.
- Oversaw crucial design components while implementing solutions and delivering clean code.

Frontend Engineering Intern – [Clarifai](#)

Jun 2017 – Sept 2017

- Using React.js, Redux, Jekyll and Javascript, helped create scalable and robust front-end UI / UX web applications for Clarifai while working closely with backend engineers to develop new features.

Fullstack Student Application Developer – [UC Davis CAES Dean's Office](#)

Nov 2016 – Jun 2017

- Developed full-stack applications to be used in production campus-wide at UC Davis, providing solutions for the university. Designed the end to end implementation of all tools.
- Used .NET, C#, Visual Studio, and Git for a feedback bot and an internal search tool.

Software Development Intern - [Amazon](#)

Jun 2016 – Aug 2016

- Designed, implemented, and tested a backend notification engine to production for millions of customers using Java, Spring, and junit. Integrated with Amazon AWS SQS and DynamoDB.

LEADERSHIP

[hackNY](#) Fellow '17 - [hackNY](#)

Jun 2017 – Sept 2018

- One of 27 selected to participate in a prestigious program that pairs technically talented students with NYC startups for 10 weeks, with free housing, weekly tech talks, and a strong social good program.

Co-Founder & Director - [HackDavis](#)

Oct 2015 – Jun 2017

- Founded UC Davis's first major collegiate hackathon. Oversaw sponsorship, operations, finance, marketing and hacker experience while cultivating the local developer community.

Instructor - [Girls Who Code](#)

Sept 2015 – Apr 2016

- Instructed 8th grade girls the basics of programming with web apps, mobile game development, and introductions to Python/Javascript on a weekly basis using tools like Scratch.
